

Task 2 - Projections

T.O.G.W. 69,955 LB.
ZERO F.W. 48,515 LB.
FUEL LOAD. . . . 21,440 LB.
PAYLOAD 1,500 LB.
CREW 2
WING AREA 2,400 SQ. FT.
ASPECT RATIO . . 2.5
304-2 ENGINES . . TWO

With the isotope fully analysed you are ready to design your getaway vehicle. You have engineers on standby ready to make the vehicle. They just need accurate technical drawings.

Your vehicle must travel overland.

Create drawings of the side and front elevation of your vehicle as well as a plan view.

Your drawings must be to scale. Marks will be awarded for accuracy as well as innovation.
